

Landscape Plant Materials

Summer Course

*This class covers the NHCLP (New Hampshire Certified Landscape Professional) Plant Identification List. The purpose is to teach plant materials to people who are new in the industry or people with little plant knowledge. The first class introduces students to methods of identification and plant families and the rest of the classes are spent identifying plant material. The NHCLP Plant Identification List covers a wide range of common plant materials used in the landscape industry. This course is appropriate for anyone who wants to strengthen their plant material knowledge and is also designed to prepare people for the Identification portion of the NHCLP Exam. **It is open to both members of NHLA and nonmembers.***

Instructor: Dana M. Sansom; Associate Professor of Horticultural Technology, Thompson School of Applied Science.

Cost: \$450.00. per student.

Dates and Times – <http://www.nhlaonline.org/certification/course-schedule.cfm>
